

Delta-Xray Radio Club  
World Meeting 2009  
Poznan Poland

### **Awards 2009**

DXRC has handed out the following awards at this year World Meeting:

#### **Delta-Xray Radio Club - "Activation of the Year"-Award**

Given to: *317AT101 Andy*

Motivation: For being active as 326AT/DX (2009). Given for a well-done activation to one of Europe's most hard-to-get-to DXCC's and therefore rarely activated. 326 is an uninhabited island with no power and 326AT/DX it is therefore a true activation. Going to 326 is dangerous due to illegal radio activity made. Many stations worked over a several days

#### **Delta-Xray Radio Club - "Achievement Award"**

Given to: *161EX038 Wlodek*

Motivation: in recognition of outstanding work for the 11 meter IOTA community via his website <http://islands.uznam.net.pl> (Islands Database).

#### **Delta-Xray Radio Club – "Member of the Year" Award**

Given to: *26DX047 Darran*

Motivation: Given to Darran for the spirit presented to DXRC, hard work and support for the club. Darran is a very active member "on air", both from home and from portable setups (activities). Without Darran around, the club would suffer...

Congratulations to all of you.

DXRC President
